Caring for the Human Spirit Conference

May 20-22, 2019, Myrtle Beach, South Carolina

“ The ability to provide primary palliative care is a skill set that nurse practitioners should acquire, develop, and refine ... Equally as important as the distressing physical symptoms are issues related to spiritual or emotional distress.”

(Journal for Nurse Practitioners. 2016;12(10):647-653)

**HealthCare
Chaplaincy
Network™**

We're the experts in clinical care, education and research related to spiritual care in health care.
